1 次の英文を読んで、後の問いに答えなさい。

Many people have stories about seeing UFOs. Sometimes people see strange lights in the sky. Others have seen something that looks like a *disk or a “flying *saucer.” We call them “UFOs.” Some people think that UFOs are *alien spaceships visiting Earth.

Judy works for a group, *the Mutual UFO Network. The group studies UFO *sightings. In *Nevada, there is a place which people call Area 51. She thinks Area 51 may be the best place on Earth to see UFOs. One day, she took some photos in the area and found something. She thinks it is a UFO. “We saw this little *disk-shaped thing in our photos. It’s very exciting,” she says.

Pat lives near Area 51. One night, she saw a strange light in the sky. The light’s *movements were not natural. It moved from side to side and up and down. She thinks it was a UFO.

Some people think that *the U.S. Air Force doesn’t want to show information about Area 51, UFOs, and the aliens inside them. But actually, Area 51 is a place which the U.S. Air Force uses to test new *technology, for example, new kinds of airplanes.

James is a pilot who flew airplanes at Area 51. “There is no UFO activity at Area 51,” he says. “No flying saucers, no aliens.”

Then what did Judy and Pat see? Bill worked at Area 51, too. He thinks he knows the answer. He says that he has built some airplanes which look strange, so he can understand why some people think that they are UFOs.

So are UFOs real? You’ll have to decide for yourself. But if you visit Nevada, keep your eyes on the sky!
